EXPERIENCE

Backend Development Intern <i>Zymo</i>	Jan 2025 – Apr 2025 <i>Mumbai, India</i>
– Collaborated with a team of interns to redesign and redevelop the company's car rental website. – Integrated third-party REST APIs and optimized site performance using SEO and performance audits. – Worked on backend functionalities such as booking flow, user access logic, and data structuring.	
Data Visualization Virtual Internship <i>Tata Forage (with TCS)</i>	Oct 2023 <i>Remote</i>
– Created data visualizations and analytics dashboards for Tata Consultancy Services. – Prepared insights and visual reports for client leadership decision-making.	

PROJECTS

Prep.AI – Generative AI Platform	GitHub Dashboard
– Developed an AI platform using LLMs, FAISS, and LangChain for resume analysis and interview preparation. – Automated ATS feedback and resume improvement suggestions, boosting accuracy and efficiency. – Technologies: Python, Gemini API, FAISS, LangChain, Streamlit	
Network Intrusion Detection System (NIDS)	GitHub Dashboard
– Built an ML-based system to classify normal and malicious traffic using benchmark datasets. – Achieved high accuracy; ongoing work includes SHAP explainability and IPS integration. – Technologies: Python, Scikit-learn, Flask, Pandas, NumPy	
MedConnect360	GitHub Dashboard
– Developed a full-stack appointment management system connecting doctors, patients, and admins. – Implemented secure authentication, scheduling, and real-time status updates for three user roles. – Technologies: React.js, Node.js, Express.js, MongoDB	
Google Data Analytics Capstone Project	GitHub Dashboard
– Analyzed 5.6M+ ride records to identify trends in user behavior and seasonal ride patterns. – Built a Tableau dashboard with KPIs and interactive filters for visual insights. – Technologies: Excel, SQL, Tableau	

CERTIFICATIONS

SQL (Intermediate) – HackerRank
Google Data Analytics – Coursera
Python (Basic) – HackerRank
